1. Motor characteristic values reported in the tables refer to voltage 3-400V 50 Hz, ambient temperature max. 40 °C, altitude up to 1000 m, above sea level operating condition. These are two speed motors and they are exempt from efficiency requirements of the regulation (UE) 2019/1781 - Article 2 (2) point n). I valori indicati si riferiscono al funzionamento del motore con alimentazione 3-400V 50 Hz, temperatura esterna max 40 °C, altitudine fino a 1000 m s.l.m., servizio continuo (S1). Questi sono motori a due velocità e sono esenti dai requisiti di efficienza del regolamento (UE) 2019/1781 - Articolo 2 (2) punto n).

2. The table shows the sound pressure noise level, measured at one metre range from the motor according to the Acirve (ISO 1680). The shown noise levels refer to motor no-load operating condition and should be regarded with a tolerance of  $\pm 3\text{dB}$ . I valori di rumorosità si intendono a regime espresso in pressione sonora, misurati ad un metro di distanza dal motore e ponderati secondo la curva A (ISO 1680). La tolleranza sul valore indicato è di  $3\text{dB}$ .

2. MGM keeps the data provided as up-to-date and correct as possible. Since the products are subject to changes and improvements, the data indicated cannot be considered

binding. The data indicated must also be understood as being general in nature. For specific applications, please contact the MGM staff. La MGM motori elettrici SpA si adopera per mantenere i dati forniti il più possibile aggiornati e corretti. Dal momento che i prodotti sono oggetto di continue modifiche e miglioramenti i dati indicati non possono tuttavia essere considerati impegnativi. I dati indicati inoltre si devono intendere come informazioni di carattere generale sul prodotto. Per specifiche applicazioni Vi raccomandiamo di contattare lo staff della MGM.
